- Redmond/Williams
- Reliance Home Comfort
- Rheem Canada
- Sun-Brite Drapery
- TORLYS
- VELUX

And The Innovation Gauntlet Winner is... EDDY HOME!

2017 Innovation Gauntlet winner Eddy Home inc.

Returning this year, after being rated one of our top sessions, was the Innovation Gauntlet. The Innovation Gauntlet is a 'Dragon's Den' style *pitch session* designed for builders who are interested in learning about advanced building performance solutions.

During this highly anticipated session, Gord Cooke, a top building scientist moderated, while attendees heard directly from a select number of green building solution providers who joined us to share their most innovative new products advancing building performance. Our All-Star list of Builder Dragons asked important, insightful questions to get to the heart of matter: what product would go home with the title of Most Innovative Housing Technology? After the session, attendees had the opportunity to explore the Innovation Showcase, ask questions of their own and cast their ballot for the product they thought was the "Most Innovative". This year, Eddy Home Inc. took home the prize with their Eddy IQ Meter.

The Innovation Gauntlet finalists were:

1. Eddy Home Inc
2. Isofoam Group
3. Panasonic Eco Solutions Canada
4. Redmond Williams and Bosch
5. TORLYS
